Neo Paris, 2047

The technological revolution did happen, just not really the way people thought it would. It wasn't a better grasp and control on our reality, it was an escape from it. It all started as just games, virtual worlds called "Verses", in which players could play avatars in different kinds of settings: medieval, science-fiction, western… Unable to distinguish reality from increasingly realistic simulations, nearly everyone is now permanently connected to the Verses.

The cyberpunk setting of this game is based on the universe of the feature film Virtual Revolution, *aka* 2047 Virtual Revolution, *released in theaters in 2016 and directed by Guy-Roger Duvert, the designer of the game. A novel was also published, a prequel to the film.*

OVERVIEW

As the head of a multinational corporation producing virtual universes, take control of Neo Paris and the verse market, after a merciless struggle against your competitors, each more corrupt than the last.

Expand your influence, set up your servers, develop verses, recruit agents and let them get their hands dirty for you. But avoid attracting the attention of the Necromancers: these cyber terrorists, also known as Necros, will do anything to take you down. Will you manage to become the most influential corporation in Neo Paris?

CONTENTS

NOTE: *Most of the components of the game are represented in the rules and on the cards by icons, shown below, next to their names. See page 16 for a summary of all icons.*

1 MAIN BOARD

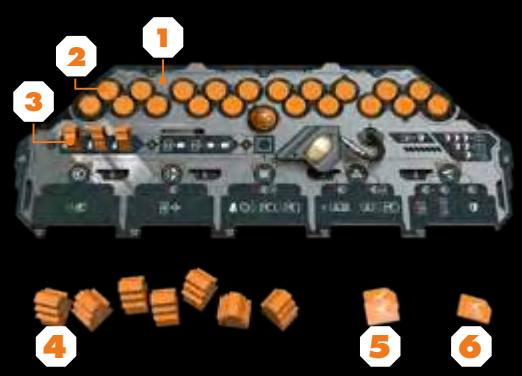

The Main Board consists of the following elements:

1. 5 available Verse card spaces
2. Verse card deck
3. Necro card deck
4. Corruption card deck and discard
5. Recycle Area
6. Reminder of the bonuses gained when you collect Influence tokens from the Recycle Area
7. Turn Order Track
8. Income Track
9. Neo Paris (divided into 7 Districts, each divided into 3 or 4 Boroughs)
10. Agent card deck
11. 55 available Agent card spaces
12. 5 Localization token spaces

NOTE: *Two Boroughs (in a same District or in two different Districts) are considered adjacent if they share a border (not only a corner).*

For each Player (in 4 colors):

1. **1 PLAYER** board
2. **20 INFLUENCE** tokens
3. **3 DIRECTORS** tokens
4. **7 SERVERS** tokens
5. **2 INCOME** markers
6. **1 TURN ORDER** marker

5 LOCALIZATION tokens *(numbered 1 to 5)*

24 2 VPs tokens

24 LOCALIZATION cards

12 OBJECTIVE cards

20 IMMUNITY tokens

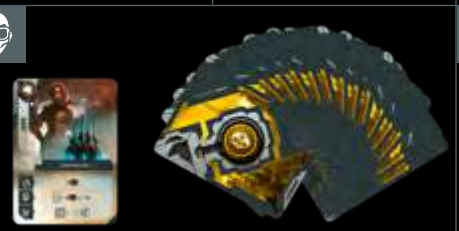

60 EUROCREDIT tokens *(values 1, 5 and 10)*

7 TITLE cards *(1 for each District)*

36 CORRUPTION cards

18 LEVEL 1 AGENT cards *(6 Fighters, 6 Techs, 6 Diplomats)*

15 LEVEL 2 AGENT cards *(5 Fighters, 5 Techs, 5 Diplomats)*

24 VERSE cards *(6 Science Fiction, 6 Horror, 6 Fantasy, 6 Adventure)*

14 NECRO cards *(11 Standard cards and 3 End of Game cards)*

7 BOOST cards

12 NECRO *markers (used to track Necro effects on Player Boards)*

1 SCOREPAD

SETUP

1. Place the Main Board in the center of the table.
2. Each player chooses a color, takes a Player Board and the corresponding Influence tokens. They place a number of Influence tokens on their Player Board depending on the number of players, (2.a), filling the leftmost spaces first.

   2 Players ▶ 20 | **3 Players ▶ 18** | **4 Players ▶ 15**

Return the unused tokens to the box (in 3 or 4 Player games).

Players take their 3 Director tokens and place them on the corresponding spaces on their Player Board (2.b), the 7 Server tokens (2.c), 10 (2.d) and 1 Immunity token (2.e).

NOTE: *The 3 Directors are represented by different miniatures for aesthetic reasons, they are all identical in terms of gameplay.*

3 • Deal 2 Objective cards to each Player. Return the remaining cards to the box. At the end of the game, Players will choose which of the 2 cards will count towards their score.

4 • Players start the game with an Income of 5 and place a Marker on the corresponding space on the Income Track. An Additional Marker will be used if your income goes over 20. (4.a).

5 • Deal the 24 Localization cards so that all Players have the same number of cards. (12 for 2 Players, 8 for 3 Players, and 6 for 4 Players).

- Each player places 1 Influence token on each of the Boroughs indicated on the cards they received (5.a).
- The player who gets the 1st Player card places their Marker on the 1st Player space on the Turn Order Track. The other players, in clockwise order, place their tokens in the next available space. (5.b).
- Take all the Localization cards and shuffle them together. Form a deck and place it next to the Board.

6 • Prepare the Agent card deck:

- Shuffle the Level 2 Agent cards face-down, remove 6 of them, and place the remaining 9 cards in a face-down deck on the corresponding space.
- Shuffle the Level 1 Agent cards face-down, remove 3 of them, and place the remaining 15 on top of the Agent deck.
- Players can look at the removed cards if they wish before returning them to the box.

7 • Reveal the first 5 Agent cards and place them on the 5 Agent spaces on the Main Board.

- Then, for each of the 5 Agents, draw 1 Localization card and place the corresponding Localization token in the indicated Borough (7.a). This indicates where in Neo Paris the Agent is located.
- Return the drawn Localization cards to the box. They won't be used for the rest of this game (7.b).
- If the 1st Player/Intercepted Agent card is drawn, immediately remove the Agent's card from the board. Do not draw another card. This Round, there will be 1 less Agent available to recruit. Leave the Localization token under the card space.

8 • Shuffle and place the Corruption cards in a face-down deck on the corresponding space.

9 • Shuffle and place the Verse cards (Loading side up) on the corresponding space and place the fisrt 5 cards (Loading side up) on the corresponding spaces above the Main Board.

10 • Pick 1 End of Game Necro card at random and place it face-down on the corresponding space, without looking at it. Then pick 4 regular Necro cards at random and place them face-down on top of the End of Game Necro card. Return the remaining Necro cards to the box.

11 • Place the 7 Title cards face-up (11.a) and the 7 Boost cards face-down next to the Main Board (11.b).

12 • Place the remaining Eurocredits (12.a), 2 VPs (12.b), Immunity tokens (12.c) and the Necro markers (12.d) near the Main Board to form a General Supply.

GAMEPLAY

The game plays in 5 Rounds.

Starting with the 1st player, then following the Turn Order Track, each player plays a Turn. Each player will perform 3 Turns in a Round, one for each of their Directors.

A player's turn is divided into 3 Phases, always performed in the following order:

[1] PLACING A DIRECTOR ▶ [2] INFLUENCE ▶ [3] ACTION

In addition, at any point during their turn, a Player may:

- Activate a Title card (see below)
- Activate the ability of an Agent On Duty (see page 5)
- Promote an Agent On Duty (see page 5)
- Collecting their Influence tokens back from the Recycle Area (see page 5)

[1] PLACING A DIRECTOR

Place one of your Director tokens in a Borough of your choice in Neo Paris, without any placement constraints.

[2] INFLUENCE (OPTIONAL)

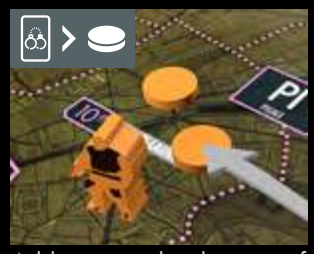

During this Phase, you may try to take control of the Borough where you have placed your Director, to weaken an opponent's Influence there or to strengthen your own.

NOTE: *A player may have more than one Influence Token in the same Borough.*

IMPORTANT: *A single Borough can NEVER contain Influence tokens belonging to more than one Player. Therefore, to take control of a Borough controlled by an opponent, you must first remove their Influence tokens. There are no exceptions to this rule.*

When an Influence Token is removed (during this phase or at any time during the game), it is **ALWAYS** placed in the Recycle Zone (top right of the Main Board).

During the Influence phase, perform only one of the following 3 maneuvers:

Add one, and only one, of your Influence Tokens to the Borough where you placed your Director. Take the Token from your Player Board. Draw 1 Corruption Card.

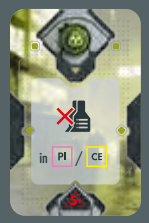

Remove one, and only one, Influence Token (opposing or not) in the Borough where you placed your Director. This token is placed in the Recycling area. Draw 1 Corruption Card.

Take one, and only one, of your Influence Tokens from any Borough and place it on the Borough where you placed your Director.

/... / CORRUPTION CARDS

Several game effects involve drawing one or more Corruption cards. Keep these cards without showing them to the other players. At the end of Round (see page 8), if you have 5 or more cards, you will have to suffer the effects of these cards.

NOTE: *If the Corruption cards deck is depleted, shuffle the discard pile and create a new deck.*

[3] ACTION

You may perform 1 Action out of the 5 Actions on your Player Board:

WORK | **RECRUIT AN AGENT** | **BUILD A SERVER** | **CREATE A VERSE** | **MAKE A DONATION**

Some cards can improve an Action, either permanently (through Boost or Agent cards) or on a one-time basis (certain Titles, such as Nation, and certain Agent Promotion abilities, such as Don Armando). You may receive the bonus before or after performing the action and all bonuses on an Action are cumulative, without limit.

NOTE: *A bonus cannot immediately improve the Action that brought it into play.*

A bonus always appears in the same way:

In this example, when you perform the Build a Server Action, you gain +2.

NEO PARIS

Neo Paris is divided into 7 Districts, each divided into 3 or 4 Boroughs. A player controls a Borough when they have at least one Influence token or Server on it (see page 7).

- As soon as a player controls all the Boroughs in a District, they gain control of the District. They immediately place the corresponding Title Card in front of them.
- If they subsequently lose control of two Boroughs in the District, they immediately lose control of the District and the corresponding Title card (it is put back next to the Board).

IMPORTANT: *Whenever there is a change in Influence in a District, especially at the end of the Influence Phase, you must check whether a player has lost or gained a Title.*

ACTIVATE A TITLE

/... / TITLE CARD

1 ▪ *District's Name*
2 ▪ *Ability*

Each Title card grants a specific ability, which you may use once per Round, at any time during your Turn (except for the Quartier Latin Title, see page 15). Turn your Title card sideways. This Title will remain turned for the entire Round, unless you lose it.

AGENTS

Each Round, 4 or 5 Agents can be recruited. They are numbered 1 through 5. This number refers to the Localization tokens placed on the board at the beginning of the Round and indicates in which District the Agent is located. Once recruited by a Player, an Agent is placed on Duty, on top of their Player Board. A Player may not have more than 3 Agents on Duty.

/... / AGENT CARD

LEVEL 1 LEVEL 2

1. *Type of Agent*
2. *Name*
3. *Level*
4. *Quote*
5. *Ability*
6. *Promotion Ability*
7. *Boost (Level 1 Agents only)*

During their Turn, once their Director has been placed, a Player may freely activate one or more Agents (at the same time or not) to:

USE ITS ABILITY	PROMOTE IT *(and use its Promotion Ability).*

IMPORTANT: *When Activated, an Agent acts in the Borough where the Director was placed that turn. This is essential for many abilities and effects. For example, an effect that says 'in the Borough' indicates the Borough where the Director was placed that Turn.*

NOTE: *Some effects allow you to add Influence tokens. As stated in the general rules, they cannot be added to a Borough where opponent's Influence tokens are already present.*

USING THE ABILITY OF AN AGENT ON DUTY

Turn the Agent on Duty sideways and use the ability on its card. A turned Agent will remain turned for the entire Round, so you can only use its ability once per Round.

An Agent's ability depends on its type (plus an additional effect for level 2 Agents):

FIGHTER	TECH	DIPLOMAT
Remove 1 Influence token (opposing or not) from this Borough and place it in the Recycle Area (do not draw a Corruption card)	Gain 3	Gain 1 Immunity token

PROMOTING AN AGENT ON DUTY

You may promote an Agent on Duty at any time during your Turn, whether it is turned or not (i.e., you can use an Agent's Ability and then promote it in the same Round, or even in the same Turn). When you do, you may choose to use the Agent's Promotion Ability.
NOTE: *Level 1 Agents Promotion Ability always makes you draw 1 Corruption card if you choose to use it.*
Then you can:

SEND THE AGENT TO RETIREMENT:	or	TURN THE AGENT INTO A BOOST *(Level 1 Agents only):*
Place the card face-down on the right side of your Player Board. It can never be discarded.		Slide the card underneath your Player Board, under the indicated Action, leaving only the Boost line visible. When performed again, this Action will be improved by the effect of the Boost(s).

In all cases, an Agent that has been promoted, retired or turned into a Boost is no longer considered to be on Duty (and this frees up a spot if you had reached the limit of 3 Agents on Duty).

EXAMPLE: *Guy-Roger has recruited the Agent Miss Yoshida. As soon as the Agent is on Duty, Guy-Roger turns it to activate it and gains 1 Immunity token. Then he can decide to Promote it immediately: he draws 1 Corruption card to add 1 Influence token. Finally, if he wishes, he can turn the Agent into a Boost and place it under the Recruit Action. From now on, when he performs the Recruit an Agent Action, including this turn, he will gain 2 and will add +1 to the Range. He could also have decided to simply retire the Agent instead of turning it into a Boost, so as not to risk losing the Agent to a game effect.*

RECYCLE

COLLECTING INFLUENCE TOKENS FROM THE RECYCLE AREA

REMINDER: *As soon as an Influence token is eliminated from a Borough, regardless of the cause, it is placed in the Recycle Area.*
At any time during your turn, if you have one or more Influence tokens in the Recycle Area, you may choose to collect some or all of them and place them back in your reserve on your Player Board. Then gain the benefits depending on the number of tokens collected. It is possible to get several benefits, or even the same one several times.

1: +1	2: Discard 1 Corruption card at random or Secretly look at the top Necro card	3: Gain 1 Immunity token

EXAMPLE: *Johann has 4 Influence tokens in the Recycle Area. On his turn, he can decide to collect all of them for either:*

+4	at random and +2	at random
and +2	and	and +1

He could also decide to collect less than 4 (and choose his benefits accordingly), or even leave them all in the Recycle Area.

THE ACTIONS

WORK

Gain 5 €. Take them from the General Supply and place them near your Player Board.

RECRUIT AN AGENT

The Recruit Action has a default Range of 1(◂1▸) which indicates how far away from your Director an Agent can be for you to recruit it. Some effects can improve this Range.

You can recruit an Agent if the following conditions are met:

- The Agent is within range of the Director you just placed, i.e., the Agent is in your Borough or in an adjacent Borough, if you have a Range of 1, or in a series of adjacent Boroughs, if you have an Improved Range.
- You do not already have 3 Agents on Duty.

NOTE: *Boroughs that touch at only one corner are not considered adjacent.*

To perform the Action:

1 • Pay 4 €. Return the spent tokens to the General Supply.

2 • Immediately take the corresponding Agent card and place it in one of the 3 slots above your Player Board. This Agent is now on Duty.

3 • Remove the corresponding Localization token from Neo Paris and place it back on the now-empty slot of the recruited Agent's card.

EXAMPLE: *Cyril wishes to recruit the Agent Pixel, whose card is on Space #3, and whose Localization token is in the 13th Borough.*

He has a Range of 1. He decides to place his Director in the 14th Borough, which is adjacent to the 13th.

He pays 4 € then takes the Pixel card, and places it above his Player Board, on one of his 3 Agents on Duty slots.

Finally, he places Localization token #3 back on space #3 to indicate that the Agent is no longer available in Neo Paris.

BUILD A SERVER

You can build a server in the Borough where you placed your Director if the following conditions are met:

- The Borough does not already contain another player's server,
- You have at least one Influence token in the Borough,
- You do not already have a Server in the same District.

NOTE: *Some cards allow you to ignore some of these conditions.*

To perform the Action:

1 • Pay 10 €.

2 • Immediately increase your Income by 2. Move your Income marker up 2 spaces on the Income Track.

3 • Gain 1 +2 VPs (which grants you 2 VPs at the end of the game).

4 • Draw 1 Corruption card.

5 • Finally, place one of your Server tokens in the Borough.

IMPORTANT: *A Borough is always considered to be controlled by the owner of a Server, even if they lose their Influence tokens there. A Borough with a Server may therefore be controlled by 2 Players simultaneously*

CREATE A VERSE

1 • If you wish, you may first pay 2 € to refresh the 5 Verse cards available on display, return them to the bottom of the Verse deck and fill the display with the next 5 Verse cards from the deck. You can do this as many times as you like, paying 2 € each time.

2 • Pay 7 €.

3 • Immediately increase your Income by 1.

4 • Draw 1 Corruption card.

5 • Take 1 of the 5 available Verse cards and place on the left side of your Player Board, Loading side up. Then slide the remaining Verse cards to the right to fill the gap, if any, and add a new Verse card to the leftmost empty space.

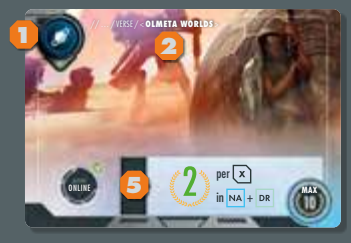

/... / VERSE

When you acquire a Verse Card, it is "loading". The card is placed Loading side up and has no effect. When you met the indicated condition, you can put the Verse "Online". Get the bonus immediately and flip the card to its Online side.

LOADING

ONLINE

1 ▪ *Type of Verse*
2 ▪ *Name of the Verse*
3 ▪ *Condition to meet to put the Verse Online*
4 ▪ *Bonus gained when the Verse is put Online*
5 ▪ *Victory Points gained at the end of the game if the Verse is Online*

If you already meet the requirement when you acquire a Verse, you can put it online immediately.

You may voluntarily choose to wait and not put a Verse Online despite the requirements being met. However, you can only put a Verse online on your turn. You can put several Verses Online during your turn if the conditions of each are met.

Some Verses do not have a condition to complete and automatically go Online.

Verses cards that are still Loading side up at the end of the game will not score any Victory Points. However, they can grant points with certain Objectives or Verses.

IMPORTANT: *You may, at any time during your turn, exchange a Verse, whether it is Online or not, for 1 Immunity token. The Verse is discarded and will not score any points at the end of the game, even if it was Online.*

NOTE: *When a Verse card is discarded, place it back under the Verse deck.*

BOOST

ADD A BOOST CARD

/... / BOOST CARD

1 ▪ *Corresponding Action*
2 ▪ *Boost Effect*

Some Verse bonuses grant a Boost.

At the beginning of the game, 7 Boost cards are available. The player who gains a Boost chooses a card among those still available and slides it under their Player Board, at the location of the corresponding Action, leaving only the Boost line visible. The next time the Action is performed, it will be improved by the effect of the Boost(s) placed under it.

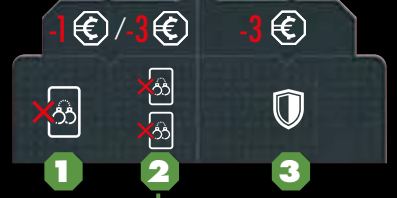

When a Boost is discarded, put it back with the available Boost cards.

MAKE A DONATION

1 • You may either pay 1 € to discard 1 Corruption card of your choice, or pay 3 € to discard 2 Corruption cards of your choice.

2 • In addition, you can pay 3 € to gain 1 Immunity token.

EXAMPLE: *Cassandra feels it is time to make a donation.*

1 ▪ *She could pay only 1 € to discard 1 of her Corruption cards.*

2 ▪ *But she has a lot of these and chooses to pay 3 € to discard 2 of her choice.*

3 ▪ *She could then pay 3 € to gain 1 Immunity token, but she decides not to.*

END OF ROUNDS 1 TO 4

Once all players have played their 3 Directors, the Round ends. Perform the following steps in order, except for the end of Round 5, for which you should refer to page 9 - End Game:

[1] CHECK CORRUPTION AND INTERPOL RAID

If a player has 5 or more Corruption cards, they have drawn the attention of Interpol, who raids their headquarters. The player reveals all of their Corruption Cards and suffers their effects in the order of their choice.

If a card has no impact for the player (e.g. eliminating an Influence token from a District where it is not present), all the better for them.

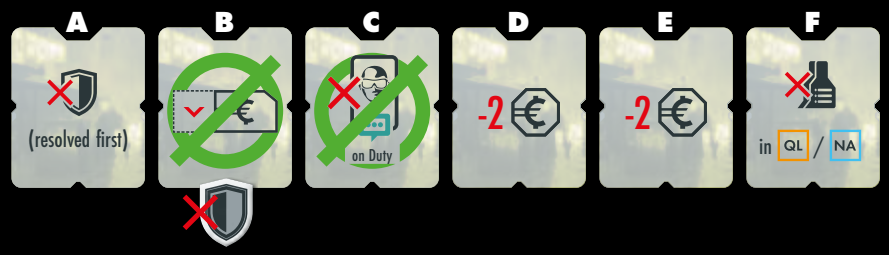

A player can spend 1 Immunity token to ignore **THE EFFECT OF A CORRUPTION CARD** (This can be repeated.)

After a Raid, all of the player's Corruption cards, whether they had an effect or not, are discarded.

Players who were not raided keep their Corruption cards.

NOTE: *Some Corruption cards give you a choice between several options. If one of these options would affect you, you* **MUST** *choose it and apply the card's effect.*

EXEMPLE: *Cyril has 6 Corruption cards in his hand at the end of the Round. He must therefore undergo a Raid and apply their effects.*

- *Card* **A** *causes him to lose 1 Immunity token and takes priority. It must be resolved first. He discards 1 Immunity token.*
- *He has 1 Immunity token left which he decides to discard to ignore the effect of the card* **B**, *which would otherwise decrease his Income by 1.*
- *Card* **C** *would cause him to lose a Diplomat Agent, but he has none, so the card has no effect.*
- *Cards* **D** *and* **E** *cause him to lose 2€ each. Since he had 3€ at the end of the Round, he loses them all.*
- *The last card* **F** *causes him to lose a Server in either the "Quartier Latin" or the "Nation" District. He has one Server in "Nation" and none in "Quartier Latin", so he must apply the effect and lose the Server he has in "Nation".*
- *Finally, Cyril returns all of his Corruption cards to the discard pile.*

[2] NECRO ATTACK

The most successful corporations will inevitably draw the attention of the dreaded Necro Terrorists.

/... / NECRO CARD

- Player(s) with the lowest Income are affected by the **MINIMUM** effect (1).
- All Players are affected by the **GLOBAL** effect (2) regardless of their Income.
- Player(s) with the highest Income are affected by the **MAXIMUM** effect (3).
- If all players have the same Income, they all suffer the 3 effects.

- Reveal the top Necro card and apply its effects.

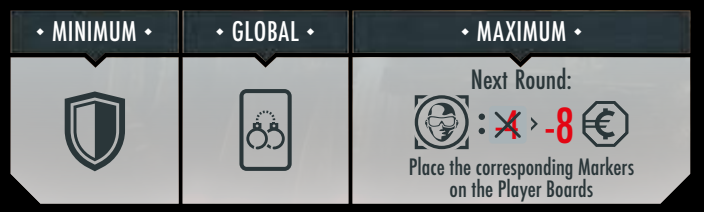

A Player can spend 2 Immunity tokens to **IGNORE THE GLOBAL EFFECT** of a Necro card.

A Player can spend 3 Immunity tokens to **IGNORE THE GLOBAL AND MAXIMUM EFFECTS** of a Necro card.

NOTE: *Some Necro cards (Corruption, Insurrections, Disruption of Transports) change the cost of certain Actions for the next Round. Use the Necro markers to track the modified Actions on your Player Board.*

EXAMPLE: *The Necro card is revealed. The Income of each player is compared.*

- **MINIMUM:** *Orange has the lowest Income, so they apply the effect and gain 1 Immunity token.*
- **GLOBAL:** *The Global effect applies to all players, who must each draw 1 Corruption card. Each player may spend 2 Immunity tokens to ignore this effect.*
- **MAXIMUM:** *Red and Green are tied for the highest Income. They should both suffer the Maximum effect. However, Red decides to spend 3 Immunity tokens. Therefore, they will not suffer the Global nor the Maximum effect. Green takes the corresponding Necro Marker and places it on the "Recruit an Agent" Action on their Player Board, to remind themselves that it will cost them more in the next Round.*

[3] DETERMINING THE TURN ORDER

The Player with the most Influence tokens on their Player board chooses their position in the Turn Order. Then the next Player with the most Influence tokens chooses, and so on. In case of a tie, the Player with the lowest Income chooses first. If there's still a tie, the Player with the least € chooses. Move the tokens of the Turn Order track to indicate the new Turn order.

[4] INCOME

Each Player gets as many € as their Income level.

[5] MAINTENANCE

A • Update the Verse cards

Discard the rightmost Verse card, slide all the remaining Verse cards to the right, and add a new Verse card to the leftmost space.

B • Update the Agent cards

The Agent cards that have not been recruited are discarded and 5 new Agent cards are drawn and placed in Neo Paris, following the same procedure as for the setup.

NOTE: *At the end of Round 4, only 4 agents will be placed on the Board.The Agent deck will be exhausted and Agent space #5 will have no card assigned to it.*

C • Player's maintenance

Players take their Directors back from the Board, and put any active Agents that have been activated back upright, as well as any Titles used. They remove any Necro marker from the previous Round from their Player Board. A new Round can begin.

END OF ROUND 5 AND END OF GAME

The game ends when 5 Rounds have been played. Proceed with the following steps:

[1] END OF GAME INTERPOL RAID

All players are raided by Interpol (even if they have less than 5 Corruption cards) and suffer the effects of their cards in the order of his choice.

A player can spend 1 Immunity token to ignore **THE EFFECT OF A CORRUPTION CARD** (This can be repeated.)

[2] END OF GAME NECRO ATTACK

The last Necro attack is resolved as the previous ones, except that the effects of the End of Game necro cards have an impact on the Victory Points scoring.

A Player can spend 2 Immunity tokens to **IGNORE THE GLOBAL EFFECT** of a Necro card.

A Player can spend 3 Immunity tokens to **IGNORE THE GLOBAL AND MAXIMUM EFFECTS** of a Necro card.

[3] END OF GAME SCORING

Each player totals their victory points (VPs) as follows:

2 VPs per token gained during the game	1 VP per 5 €.	1 VP per Income level.
2 VPs per controlled Borough	10 VPs per Title owned at the end of the game.	

1 VP per Agent (+5 VPs per trio of Agents of different types).

NOTE: *All agents, whether on Duty, Promoted, or turned into a Boost, are counted for the calculation of VPs.*

VPs based on the number of Servers built:

SERVERS	1	2	3	4	5	6	7
VPs	1	3	6	10	15	21	28

Each Verse Online scores VPs according to the conditions indicated on its card.
ATTENTION: *Verse cards can not score more than 10 VPs.*

Each Player chooses 1 of their 2 Objective cards and scores VPs as indicated on the card. The other Objective card is discarded.
ATTENTION: *Objective cards can not grant more than 30 VPs.*

The player with the most VPs wins the game. In case of a tie, the Player with the most € wins. If there is still a tie, the tied Players share the victory.

EXAMPLE OF AGENT SCORING: *Johann recruited these 8 Agents during the game.*

Each one grants **1 VP**, *and the 2 series of 3 Agents of different types grant* **5 ADDITIONAL VPS** *each, for a total of* **8 + 5 + 5 : 18 VPs**.

EXAMPLE OF OBJECTIVE SCORING: *Johann has these 2 Objective cards. He must choose 1 and score the indicated VPs.*

- *The 1st would grant him 30 VPs (5 VPs per Verse card, he has 7, which should grant 35 VPs, but Objective cards cannot grant more than 30 VPs).*
- *The 2nd would grant* **15 VPS** *(5 VPs per Server, of which he built 3).*

HE DECIDES TO KEEP AND SCORE THE 1ST CARD.
