Railway Boom - Player Aid

Railway Boom is played over the course of **four rounds, each having six phases**. After that, final scoring takes place and the player with the most VP wins.

Each round is divided into the following phases:

I. ***Train Phase*** - Purchase Locomotives **[# players]** and Carriages **[# players + 2]**
Auction - bid resource = Materials
Turn - Choose 1 Locomotive Card (free). Optionally, buy up to 2 Carriage Cards paying the cost shown in the upper-left corner of the card.

II. ***Expansion Phase*** - Station (city) cards **[# players]** and place Railway Tokens
Auction - bid resource = Money
Turn - ① Station Token Placement (Increase resource income level) and ② Route Construction - use Power (hex amt +1/piece on space) and money to place railway tokens (gain resource tiles for Cities, activate Tourist Towns); Finally, check route cards

III. ***Development Phase*** - Acquire technology Development Cards (p13) **[3 x # players]**
Auction - bid resource = Technology
Turn - Choose a row, get the cheapest card free. Optionally, buy one or both of the remaining two cards from the row

IV. ***Income Phase*** *(simultaneous)* - Gain resources based on current level on each Income Track

V. ***Operation Phase*** *(simultaneous)* - Use Coal to operate trains and gain benefits.
    1. Choose a locomotive, attach carriages, place tokens on loco and applicable carriages. Tokens cannot be removed after placing.
    2. Resolve front to back - pay the Operation Cost (Coal), gain resources & VP and activate
    3. Repeat as long as you have resources

VI. ***Objective Phase*** - bid for objective multipliers which may yield large amounts of VP at game end
Auction - bid resource = The resource depicted on the Objective Card (p15) for that round
Turn - place Player Cube on the highest VP multiplier on Objective Card

Auction Step
The player furthest to the **left** on the Auction Track will start the bidding.
When bidding, players will either:

A. **Increase Bid:** Move bidding token to a higher, unoccupied space on the Auction Track. *Must have resources to pay the full bid.*
B. **Confirm Bid:** Flip Bidding Disc face-down on your current space on the Auction Track

The Auction Step continues until all players have chosen B.

Turn Step
Players take turns **one at a time**, starting with the player furthest to the **right** on the Auction Track.

Free Actions (Anytime on Your Turn)

1. **Resource Conversion** - Convert 2 resources (other than VP) into 1 resource of another type.
2. **Activate Development Card(s)** - To indicate it has been used, turn the activated card sideways. Sideways Development Cards are reset to the upright position at the end of VI. Objective Phase.

End of Game / Final Scoring (after 4 rounds)
First, calculate **Objective Cards** one by one.
Next, gain **1 VP for every 2 resources** you possess.
Finally, **gain 2 VP for each Railway and Station Token on one Railway**.
